This is to alert the general public, especially the candidates for the Nigerian Defence Academy (NDA) Entrance Examination for 68 Regular Course, of the existence of a fraudulent website purportedly owned by the Academy. In that website, candidates who were yet to print their examination cards or enter their examination centres on the NDA application portal were requested to pay certain amount of money into a named bank to facilitate the printing and entry respectively. However, it is hereby stated for avoidance of doubt that the NDA application portal had since closed, which implies that it is no longer possible to carry out any activity on the site. Consequently, any person dealing with the fraudster in the name of NDA does so at his or her own risk.
